

COUNTDOWN 2 ZERO!!!

Great news from Animal Rescue League for Countdown 2 Zero!! A grant in the amount of \$200,000.00 has been approved for targeted spay neuter of cats.

Please keep this in mind when people are calling or if you meet people needing spay/neuter of cats. Ask for their zip code and advise them that Animal Rescue League can handle the surgery for free.

Zip codes 33406, 33409, 33461, 33462.

Save a life... spread this message!

Dear Community Cat Advocates,

We are very excited to announce that we received notification today from PetSmart Charities that our grant application was approved for funding.

This grant covers community cats in traps and domestic pet cats residing in zip codes **33409, 33406, 33461 and 33462**. These areas were selected based on the large number of cats entering the shelter system and income levels of the residents. We have funding to do 2,000 cats in the next 12 months, and when we get the surgeries done we'll receive funding to do another 2,000 cats in the following 12 months

The grant covers the cost of spay/neuter, vaccines and microchips for both community and domestic cats. (Domestic cat owners would need to pay for add-ons such as revolution, e-collars, etc.).

We'll go ahead and start these surgeries this Monday, **June 1, 2015..** As always, it is very important to provide the exact address where the cats reside so we can store the info in our database and report back to PetSmart.

Please let me know if you have any questions. Thank you for all you do for the animals
